

ICE SEAL N SHINE

Product Sell

Product Full Name : TURTLE WAX ICE SEAL N SHINE

Long form Description

Turtle Wax ICE Seal N Shine features the most advanced scientific polymer engineering to intensify and maximize car care results. Layers of interlocking synthetic polymers build an invisible barrier to provide superior weatherproof protection. Layers combine to magnify, intensify and maximize protection and shine. Shared chemistry and consistency make molecules more compatible. Use in combination with ICE Spray Wax for the most durable shine and protection. ICE Seal N Shine for motorcycles and cars is fortified super hydrophobic polymers to last longer. The fine-misting trigger is the fastest and easiest way to add layers of shine and protection to your motorcycle or car exterior.

Short Description:

ICE Seal N Shine is one of our longest-lasting spray waxes, infused with carnauba for months of impeccable shine and a beautiful, glossy finish. Seal N Shine features a super flexible formula, safe for use in direct sunlight on even the hottest surfaces. This premium spray wax is our recommended go-to for busy car enthusiasts in need of a quick, yet powerful solution. Phenomenal shine and protection immediately after you wash and dry.

5 Bullets:

- Super hydrophobic polymers instantly lock in shine & superior repellency
- Blended with premium carnauba wax creates a deep, glossy shine
- Synthetic infused sealant is blended with unique polymers, SiO2 & UV blockers/inhibitors
- Extreme durability delivers ridiculous water beading & chemical resistance for up to 6 months
- Safe on all exterior surfaces including plastic, rubber trim, chrome, and wheels

Product Sell

Turtle Wax Ice Seal N Shine is specifically designed to provide your vehicle with long-lasting protection and a brilliant shine. It features a unique formula that forms a protective sealant layer on the surface of your car's paint, guarding it against various environmental contaminants such as UV rays, dirt, and road grime. This protective barrier helps prevent damage caused by oxidation, fading, and discoloration, keeping your vehicle's paint looking vibrant and glossy.

In addition to its exceptional protection, Turtle Wax Ice Seal N Shine offers an impressive high-gloss finish. It enhances the depth and clarity of your car's paint, giving it a showroom-worthy shine that stands out from the crowd. The product's advanced formula ensures that the shine lasts for an extended period, providing a fresh and polished appearance.

Applying Turtle Wax Ice Seal N Shine is a straightforward process. You can spray it directly onto the surface of your vehicle or onto an applicator pad, then spread it evenly across the paintwork. It is recommended to work on one section at a time to ensure thorough coverage. After application, you can use a clean microfiber cloth to buff the surface and achieve a brilliant shine.

Turtle Wax Ice Seal N Shine is suitable for use on various exterior surfaces, including painted metal, plastic trim, and glass. This versatility allows you to protect and enhance the appearance of your entire vehicle.

Product Usage

How To Use:

1. Wash your car thoroughly and dry it completely
2. Shake bottle well
3. Spray the product directly onto the surface (2 sprays per panel) spread with a clean microfiber towel and use another clean microfiber towel to buff
4. Use a damp microfiber towel to remove streaks
