

TURTLE WAX HEADLIGHT 2 IN 1

Product Sell

Turtle Wax Headlight 2 IN 1 Cleaner & Sealant is a cleaning and restoration product that is specially designed to remove yellowing, oxidation, and hazing from headlights and other clear plastic surfaces. The formula is also designed to provide a protective barrier to prevent future damage and extend the life of your headlights.

The product features an easy-to-use formula that requires no additional tools or equipment. Simply apply the product to your headlights using the included applicator pad, and buff it away with a microfiber towel. The formula is safe for use on all clear plastic surfaces, including headlights, taillights, and fog lights.

Turtle Wax Headlight 2 IN 1 Cleaner & Sealant is designed to restore clarity and brightness to your headlights, improving visibility and safety while driving at night or in low-light conditions. The protective sealant also helps to prevent future damage from UV rays, road debris, and environmental contaminants.

Overall, Turtle Wax Headlight 2 IN 1 Cleaner & Sealant is an effective and convenient solution for restoring and protecting your headlights, helping to extend their life and improve the appearance and safety of your vehicle.

Product Full Name : TURTLE WAX HEADLIGHT 2 IN 1

Long form Description

Turtle Wax 2-in-1 Headlight Cleaner and Sealant provides multiple benefits by cleaning and sealing in a single step, making headlight maintenance easier than ever. Precision compounds polish away cloudy surface oxidation and restore clarity to lightly damaged plastic lenses. The combination of OEM cleaner acrylic resins and silicone resins fill and seal the lens to provide a lasting protective barrier in a single application. Turtle Wax 2-in-1 Headlight Cleaner and Sealant can be used for preventative maintenance to keep new or like-new lenses clear or to clean and restore lightly oxidized lenses.

Short Description:

Turtle Wax Headlight 2 IN 1 Cleaner & Sealant restores clarity and seals headlights to protect and prevent future yellowing.

5 Bullets:

- 2-in-1 formula restores clarity and prevents yellowing in 1 easy step
- Formulated with OEM acrylic resins to help prevent oxidation and cloudiness from reoccurring
- Use regularly on new and older headlights to maintain clarity
- Also works great on clear plexiglass, plastic windows and other translucent plastics
- Safe to use on headlights and taillights and is fully compatible with other headlight lens restoration products

Product Usage

How To Use:

1. Ensure that your headlights are cool to the touch and dry before use
2. Shake the bottle well before use
3. Apply a small amount of the product onto a microfiber towel
4. Begin rubbing the product onto the headlight using a circular motion. Apply gentle pressure to remove any yellowing, oxidation, or hazing. Continue until the entire headlight is covered
5. Use a clean, dry microfiber towel to buff away the excess product and any remaining haze or residue. Use a separate microfiber towel to remove any remaining product
6. Repeat the process as necessary until the desired level of clarity is achieved
